Cybersmart Chatterbox Episode 3

So that all parents can make the most out of this resource, they are encouraged to ask the Cybersmart experts questions and share their stories with fellow parents via our online discussion forums.

The next **Chatterbox** episode is available now and we would encourage your staff and school parents to tune into our Chatterbox series and participate in the online forum so that stories and experiences can be shared.

You can listen to the Chatterbox program online, ask a question and/or join in the conversation on our Facebook page.

Watch the trailer by clicking the video below and don't forget to leave a comment.

Trolling, Tagging and Bagging

As a key education partner of the Australian Communications and Media Authority's (ACMA) Cybersmart program, we would like to update you on our new initiative to support teachers and parents in their journey to help children stay safe online.

Cybersmart has developed **Chatterbox**, an online platform that allows parents to 'tune' in to a series of short videos and conversations by Cybersmart experts on a wide variety of cybersafety topics and to ask questions.
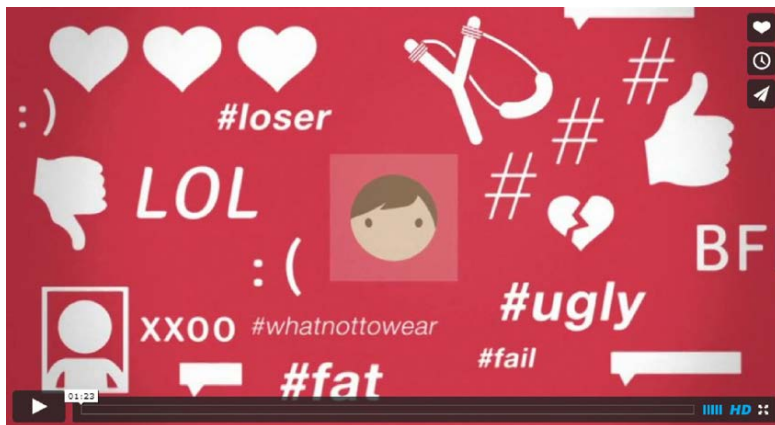

Each video and conversation, released monthly, addresses the specific issues, behaviours and safety essentials to help parents make sense of what's happening in their child's online world.

Need to catch up on the first two episodes? Find the links below.

Episode 2: Tots, Teens and In-Betweens

Has the digital world changed childhood forever or will kids always be kids regardless of changing environments? Cybersmart Chatterbox ponders where technology fits with the trials and tribulations of growing up.

Episode 1: Selfies and Someone-Elsies

The first episode of the Cybersmart Chatterbox series explores some of the risky behaviours young people can engage in online. This episode suggests tips on how to manage some of the most common parenting challenges in the online world.
