'Seesaw' App for Parents

Dear Parent/s and Carer/s,

All classes across our school will be using the 'Seesaw' App to document student learning from this term.

All parents and carers are invited to download the 'Seesaw Parent and Family' app in the Apple App Store or Google Play Store. This will allow you access to your child's learning journal and it will enable you to receive notifications when new photos or videos of your child are added.

The instructions to sign up to Seesaw are below. Your child's class teacher will receive a notification when you have signed up so he/she can start sharing photos or videos of your child's learning. Privacy information regarding the third party server that stores all images is attached.

iPhone, iPad & Android Phones

1. Download "Seesaw Parent and Family" in the Apple App Store or Google Play Store.
2. Start Seesaw Parent and Family App and tap "Create Account". Scan the QR Code below
3. Create an account.
4. Allow notifications if you'd like to be notified when new content has been added to your child's journal.

Other Smartphones & Computers

1. Go to <https://app.seesaw.me/s/006-830-509> in any web browser.
2. Choose your child from the class list and create an account.
3. After you've been approved by your child's teacher, you'll get access to their journal.

Please return the attached permission slip to your child's class teacher **by Friday 31st July** to indicate your consent to images of your child and their work being shared via the Seesaw application.

Mrs Cara Davidson
Deputy Principal

'Seesaw' App for Parents - please return by Friday 31st July

I consent to my child's images and work being shared via the Seesaw app. I have read the privacy information and agree to the terms and conditions in the full privacy policy on the website as outlined on the attached privacy information note.

Child's name: _____ Class: _____

Parent name: _____ Signature: _____ Date: _____

Seesaw Privacy Principles

An essential part of our mission is providing a service that keeps students safe, and puts teachers and parents in control of how student information is shared. We've adopted the following Privacy Principles to summarize our privacy commitments to you.

We don't own the content you provide – students and their schools do.

Anything you add to Seesaw is yours. If you'd ever like to save it elsewhere or use a different product, you can download what you've added to Seesaw to your computer or mobile device.

Student work is private to the classroom by default.

Unless you choose to share, no student work is visible outside of the classroom. Teachers can choose to invite family members to see the work their child has added to Seesaw or post some items more publicly (such as to a Seesaw blog).

We will never advertise to students, create profiles, or sell any user data.

Our business model is straightforward: we charge for optional, additional features on top of our free product. We will never sell or rent profiles of Seesaw users for any reason, and will never advertise to students.

We use security industry best practices and routinely monitor our systems to protect your information.

This means doing things like providing secure communication with our servers at all times and running routine security checks to make sure your information is secure. Read more about how we protect your privacy and security.

We are transparent about our practices, and will notify you if things change.

We write our policies in language that teachers and parents can understand. If anything substantial changes with our privacy practices, we'll let you know. The privacy policy and terms you agreed to will still apply unless you accept the new terms.

We are COPPA and FERPA compliant.

These two laws in the United States govern the collection of information about students at school and people under 13. Seesaw is fully compliant with these important laws so it's safe to use Seesaw in the classroom.

Read our full Privacy Policy on our website at seesaw.me/privacy.
